## **DETAILED ACTION**

### ***Acknowledgements***

The election of group I, claims 1-9 and 12, has been acknowledged. However, the restriction, mailed on 1/26/06 has been withdrawn and the following is a new Restriction:

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

- I. Figures 1-5 associate with claims 1-4, 8-9 and 12, drawn to invention of a pulsed laser device with solid laser medium, a saturable absorber mirror, and a photonic fiber.
- II. Figure 6 associates with claims 5-7, drawn to invention of a laser device with a waveguide solid laser medium formed on a ferroelectric crystal substrate.
- III. Figures 7-8 associates with claims 10-11 and 13, drawn to invention of an optical head with a transition odped fiber and a heatsink fixed with the laser pump.

Art Unit: 2828

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
